

Table of Contents

Lesson	Content	Class Date	Notes
101	Orientation and Basic Principles		
102	Tools and Plans		
103	Torque, Knots, Intro. to Electric Charges, and Math Skills		
104	Introduction to GHS, NFPA 70E, and Understanding and Navigating the NEC®		
105	Applied Math, Circuit Theory, Plans & Specs		
106	Conduit Bending		
107	Applied Math, Ohm's Law, Electrical Symbols, Boxes, and Box Fill		
108	Dwelling Circuit Requirements, Outlet Locations, and General Lighting Load		
109	Conductor Types, Ampacity, Overcurrent Protection, Type NM Cables, and Common Voltage Systems		
110	Voltage Drop, Cable, Conduit, and Tubing		
111	First Semester Mid-Term Review and Exam		
112	Conductor Terminology, Switches, and Receptacles		
113	GFCI, AFCI, and Other Special-Purpose Receptacles		
114	Luminaires (Lighting Fixtures)		
115	Box Fill and Introduction to Series Circuits (Front Bedroom)		
116	Box Sizing and Series Circuits (Master Bedroom)		
117	Lighting and Small Appliance Branch Circuits		
118	First Semester Final Exam		

Table of Contents

Lesson	Content	Class Date	Notes
119	Track Lighting, Dimmers, and Introduction to Parallel Circuits (Living Room)		
120	Laundry and Bathroom Receptacles and Parallel Circuits		
121	Garage and Garage Door Circuits, Underground Installations, and Parallel Circuit Calculations		
122	Appliance and Special Purpose Outlets		
123	Ranges, Ovens, Counter-Mounting Cooking Units, and Other Kitchen Appliances; Equipment Grounding Conductors		
124	Bathrooms, Exhaust Fans, and Hydromassage Tubs		
125	Heating and Air Conditioning		
126	Residential Limited Energy Systems		
127	Second Semester Mid-Term Review and Exam		
128	Multiwire Branch Circuits and Introduction to Combination Circuits (Recreation Room)		
129	Combination Circuits, Conductor Ampacity Correction, and Conduit Fill (Workshop)		
130	Services and Service Equipment, and Cost of Electrical Power		
131	Grounding and Bonding, Specialty Tools		
132	Overcurrent Protection and Circuit Conditions		
133	Service Entrance Calculations		
134	Swimming Pools, Spas, and Hot Tubs		
135	Home Automation, Standby Power, and Photovoltaic Systems		
136	Second Semester Final Exam		
Y1 Annex V	Common Voltage Systems
